

## TRITON'S SCOPE 1 & 2 ENERGY AND EMISSIONS FOOTPRINT

| Summary (unaudited) <sup>1</sup>                               | 2022  | 2023  | 2024 | 2023 to 2024 change |
|--|-------|-------|------|---------------------|
| Total Energy Consumed <sup>2</sup> (MWh)                       | 1,201 | 1,149 | 977  | -15.0%              |
| Total Energy Consumption Intensity (MWh / employee)            | 4.92  | 4.61  | 3.79 | -18.0%              |
| Total Energy Consumption Intensity (MWh / million of revenue)  | 0.62  | 0.68  | 0.61 | -10.3%              |
| Scope 1 & 2 Emissions <sup>3</sup> (MT CO2e)                   | 330   | 316   | 268  | -15.2%              |
| Scope 1 & 2 Emissions Intensity (MT CO2e / employee)           | 1.35  | 1.27  | 1.04 | -18.1%              |
| Scope 1 & 2 Emissions Intensity (MT CO2e / million of revenue) | 0.17  | 0.19  | 0.17 | -10.5%              |

<sup>&</sup>lt;sup>1</sup> Energy and emissions data and estimates follow the WRI / WBCSD GHG Protocol Corporate Standard.

<sup>&</sup>lt;sup>2</sup> Total energy is defined as office heat and electricity consumption. All offices are leased. All office energy is reported as Scope 2. Where energy data was not available, reasonable estimates were used. Fluorinated gas fugitive emissions from air conditioning not readily available and estimated to be immaterial.

<sup>3</sup> Emissions are calculated using the "location based" accounting method, which reflects the average emissions intensity of the electricity grid where each office is located. Please see detailed table below for "market based" emissions, which includes any known additional renewable electricity purchases and/or renewable electricity credits (RECs).

## TRITON'S SCOPE 1 & 2 ENERGY AND EMISSIONS (CONTINUED)

| Footprint Detailed <sup>4,5</sup>              | 2022           | 2023           | 2024             | 2023 to 2024 change |
|--|----------------|----------------|------------------|---------------------|
| Our Business                                   |                |                |                  |                     |
| Revenue (in thousands) <sup>6</sup>            | \$1,943,225    | \$1,698,405    | \$1,595,842      | - 6.0%              |
| Number of employees <sup>7</sup>               | 244            | 249            | 258              | + 3.6%              |
| Square footage of leased office space          | 74,935 sq. ft. | 77,326 sq. ft. | 83,622 sq. ft.   | + 8.1%              |
| Environment                                    |                |                |                  |                     |
| Percentage of leased office covered            | ~100%          | ~100%          | ~100%            | _                   |
| Total Energy Consumed (MWh)                    | 1,201          | 1,149          | 977              | - 15.0%             |
| Total Energy Consumed from grids <sup>8</sup>  | 100%           | 100%           | 98% <sup>9</sup> | - 2.0%              |
| Scope 1 - Total Direct (MWh) <sup>10</sup>     | -              | -              | -                | -                   |
| Scope 2 - Total Purchased Electricity (MWh)    | 727            | 680            | 549              | - 19.3%             |
| Scope 2 - Purchased Natural Gas & Steam (MWh)  | 475            | 469            | 428              | - 8.7%              |
| Electricity Renewables (%) <sup>11</sup>       | 76.9%          | 13.5%          | 17%              | + 25.9%             |
| Scope 1 & 2 Emissions (MT CO2e) Location Based | 330            | 316            | 268              | - 15.2%             |

<sup>&</sup>lt;sup>4</sup> Figures may not add due to rounding.

<sup>&</sup>lt;sup>5</sup> Figures as of 12/31 calendar year end.

 $<sup>^{6}</sup>$  Total revenues include leasing, trading revenue and net gain on sale of leased equipment, source 2024, 2023 and 2022 Form 10-K.

<sup>&</sup>lt;sup>7</sup> Total employees source 2024, 2023 and 2022 Form 10-K. Does not include contractors or Triton agents or their employees.

 $<sup>^{8}</sup>$  Total energy from grids includes electricity and heat (natural gas and central district steam).

<sup>•</sup> In 2024, the Antwerp office installed an off-grid solar panel system that generated 19MWh from installation through the end of the year, accounting for 2% of Triton's total electricity consumption.

<sup>&</sup>lt;sup>10</sup> According to GHG Protocol guidance, the offices that have natural gas heat and the office with central district steam heat provided are classified as Scope 2 – purchased energy. Therefore, no material Scope 1 energy and emissions are reported.

<sup>&</sup>lt;sup>11</sup> In 2022, Energy Attribute Certificates were purchased through a third party to offset emissions from electricity consumption. The purchase accounts for the percent of electricity renewables for 2022. The purchase of EACs for 2023 and 2024 is underway.
