Forward-Looking Statements

Certain statements in this presentation, other than statements of historical facts, including statements regarding our strategy, future operations, future financial position, future revenues, future costs, prospects, plans and objectives of management are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Statements that include the words "expect," "estimate," "anticipate," "predict," "believe," "think," "plan," "will," "should," "intend," "seek," "potential" and similar expressions and variations are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. All forward-looking statements address matters that involve risks and uncertainties, many of which are beyond our control. Accordingly, there are or will be important factors that could cause actual results to differ materially from those indicated in such statements and, therefore, you should not place undue reliance on any such statements.

These factors include, without limitation, economic, business, competitive, market and regulatory conditions, including the following: decreases in the demand for leased containers; decreases in market leasing rates for containers; difficulties in re-leasing containers after their initial fixed-term leases; our customers' decisions to buy rather than lease containers; increases in the cost of repairing and storing our off-hire containers; our dependence on a limited number of customers and suppliers; customer defaults; decreases in the selling prices of used containers; extensive competition in the container leasing industry; risks stemming from the international nature of our business, including global and regional economic conditions and geopolitical risks, including international conflicts; decreases in demand for international trade; risks resulting from the political and economic policies of the United States and other countries, particularly China, including but not limited to, the impact of trade wars, duties and tariffs; disruption to our operations from failures of, or attacks on, our information technology systems; disruption to our operations as a result of natural disasters or public health crises; compliance with laws and regulations globally; risks related to the acquisition of Triton by Brookfield Infrastructure, including the potentially divergent interests of our sole common shareholder and the holders of our outstanding indebtedness and our reliance on certain corporate governance exemptions, and that as a foreign private issuer we are not subject to the same disclosure requirements as a U.S. domestic issuer; the availability and cost of capital; restrictions imposed by the terms of our debt agreements; our ability to successfully complete, integrate and benefit from acquisitions and dispositions; changes in tax laws in Bermuda, the United States and other countries; and other risks and uncertainties, including those risk factors set forth in the section entitled "Risk Factors" in our annual report on Form 20-F filed with the Securities and Exchange Commission ("SEC") on February 20, 2026, our quarterly reports on Form 6-K filed with the SEC on April 28, 2026, July 31, 2026 and November 6, 2026 and in any subsequent documents filed or to be filed with the SEC by Triton from time to time.

The foregoing list of important factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included herein and elsewhere, including the risk factors in the documents we file with the SEC. Any forward-looking statements made herein are qualified in their entirety by these cautionary statements. Except to the extent required by applicable law, we undertake no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.

Non-GAAP Measures

Certain financial measures presented in this presentation are identified as not being prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). These non-GAAP financial measures should be considered in addition to and not as a substitute for, or superior to, financial measures presented in accordance with U.S. GAAP. Please refer to the Appendix hereto for a reconciliation of such non-GAAP measures to their most comparable GAAP measures.

Finance Lease Terminology

In the slides preceding the Appendix, we use "finance leases" to refer to customer leases for which we are the lessor. We account for these leases as sales-type leases in accordance with ASC 842.

Industry and Market Data

Certain data included in this presentation has been derived from a variety of sources, including independent industry publications, third-party financial reports and other published independent sources. Although we believe that such third-party sources are reliable, we have not independently verified, and take no responsibility for, the accuracy or completeness of such data.

Incomplete Information

The information included in this presentation is not complete and should be read in conjunction with the information included in our most recent annual, quarterly and other reports filed with the SEC.

Key Investment Highlights

1 Attractive Market

- Containers revolutionized and standardized the shipping industry, facilitating rapid growth in global trade, and now form the backbone of the global economy
- Mature lessor market supports disciplined capacity management, with container demand consistently outpacing GDP growth

2 Most Attractive, Lowest Risk Equipment Type for Leasing

- Limited re-contracting exposure with containers incurring 1-2 re-contracting periods
- Low technological obsolescence with ability to preserve residual value through useful life
- Short order cycle and high standardization leads to structurally high utilization and strong lease rates

3 Clear Leader

- Leading market position enables Triton to offer best-in-class service and differentiate itself through availability of supply, purchasing power, and fleet management—achieving strong lease rates and disposal values
- Seasoned management team with a track record of superior performance through the cycle

4 Strong Cash Flow

- Well-structured long-term lease portfolio
- Generating over $1.1 billion in cash flow before capex(1)
- Underpins financial stability and provides many levers to create value

5 Diverse and Efficient Capital Structure

- Long history of access to a range of attractively priced financing
- Preferred shares provide additional cushion for senior lenders
- Brookfield transaction demonstrates market value of equity well above book

6 Investment Grade Rating

- Corporate debt ratings of BBB- by Fitch and BBB by S&P
- Unsecured investment grade rating provides competitive advantage vs leasing peers
- Committed to unsecured investment grade rating

Market Overview

- Demand for containers has persisted throughout 2026
  - Higher than expected trade volumes and operational disruptions driving need for containers
  - Container factories booked out beyond Chinese New Year, limiting near-term supply
  - New container pricing increasing

- Triton's operating and financial performance remained strong in 3Q 2026
  - Utilization increased to near-peak levels at ~99%
  - Sales volumes of used containers remained elevated

- Lease portfolio continues to provide strong cash flow stability and supports future performance
  - ~67% of our containers on lifecycle leases
  - Average remaining lease term of ~7 years(1)
  - Limited near-term lease expirations

- Balance sheet remains strong
  - Renewed bank facility in August, no near term debt maturities
  - Leverage remains in target range
  - Completed second portfolio sale to JV between Brookfield and SMFL at significant premium to book value in 3Q 2026

ADJUSTED NET INCOME(1)(2)(3)

NET DEBT / REVENUE EARNING ASSETS(2)(4)

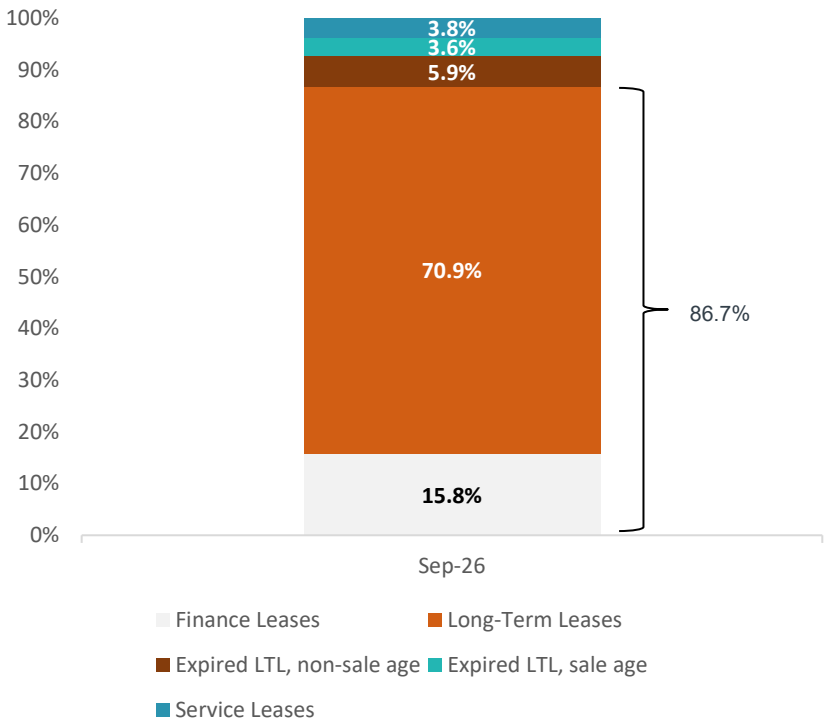

(1) For comparative purposes only, the leasing revenue, adjusted net income and cash flow before capex (excluding certain items) information presented herein for 2025 and 3Q26 LTM includes results from both our Owned Fleet and our Managed Fleet. Triton's Managed Fleet for the periods presented includes containers in the securitization portfolios owned by the JV between Brookfield and SMFL. The other periods presented reflect results from the Owned Fleet only, as there was no separate Managed Fleet during the other periods shown.
(2) Cash flow before capex (excluding certain items), adjusted net income and net debt are non-GAAP financial measures. See Appendix for reconciliation to comparable GAAP Measures.
(3) Excludes non-recurring earnings and cash flows from large buyouts of finance leases and leases with purchase options.
(4) Excludes purchase accounting adjustments. Net debt/revenue earning assets adds back 75% of deferred revenues to adjust for lease prepayments.

Over 67% of portfolio on lifecycle lease

(4) Includes all equipment and lease types.
(5) Lifecycle leases structured so that containers will be sale age at lease expiration.

TRITON

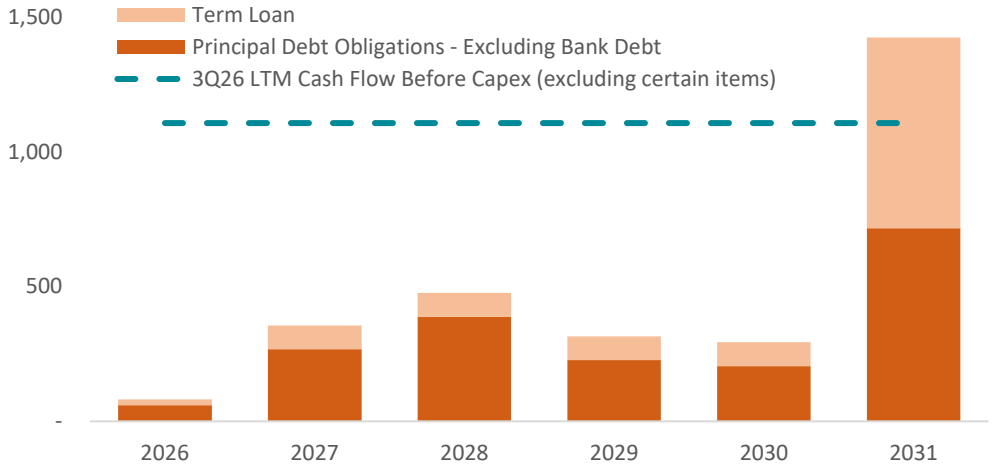

Note: Information herein includes containers in our Owned Fleet for periods prior to 2Q25 and containers in both our Owned Fleet and our Managed Fleet for periods commencing in 2Q25 and thereafter.

Investment Grade Capital Structure

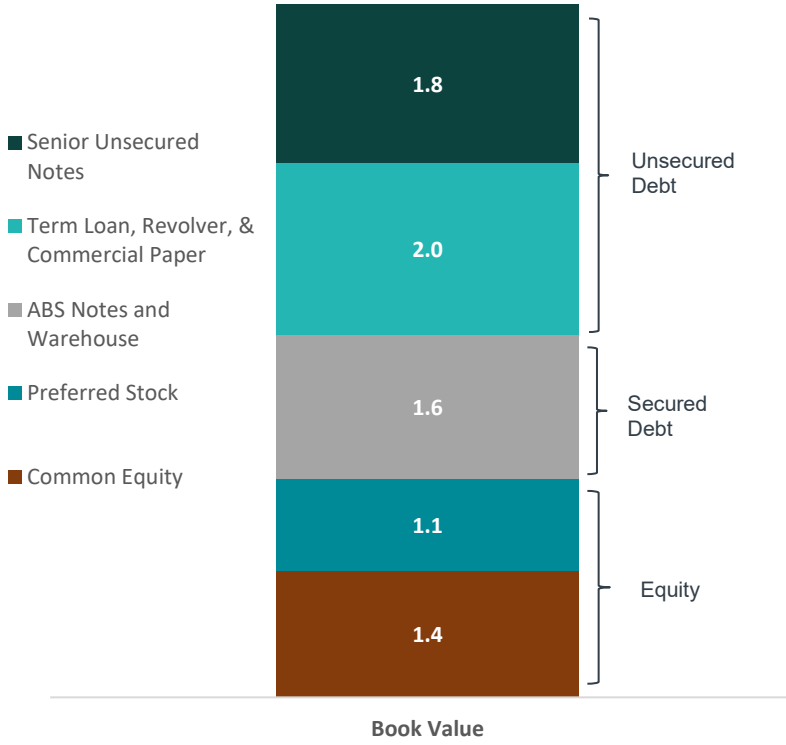

Conservatively capitalized balance sheet with strong cash flow coverage for upcoming maturities

- Our balance sheet remains in great shape
  - Target leverage of ~75% Net Debt / Revenue Earning Assets
  - Credit metrics strong
  - Debt maturities well spread and covered by our cash flow
  - Over ~$2.1bn of undrawn commitments on revolving facilities at end of 3Q26
- Maintain commitment to unsecured capital structure
- Equity transactions with JV between Brookfield and SMFL demonstrate market value well above book

STRONG CASH FLOW COVERAGE[1][2]

DIVERSIFIED AND CONSERVATIVE CAPITAL STRUCTURE AS OF SEPTEMBER 30, 2026[3]

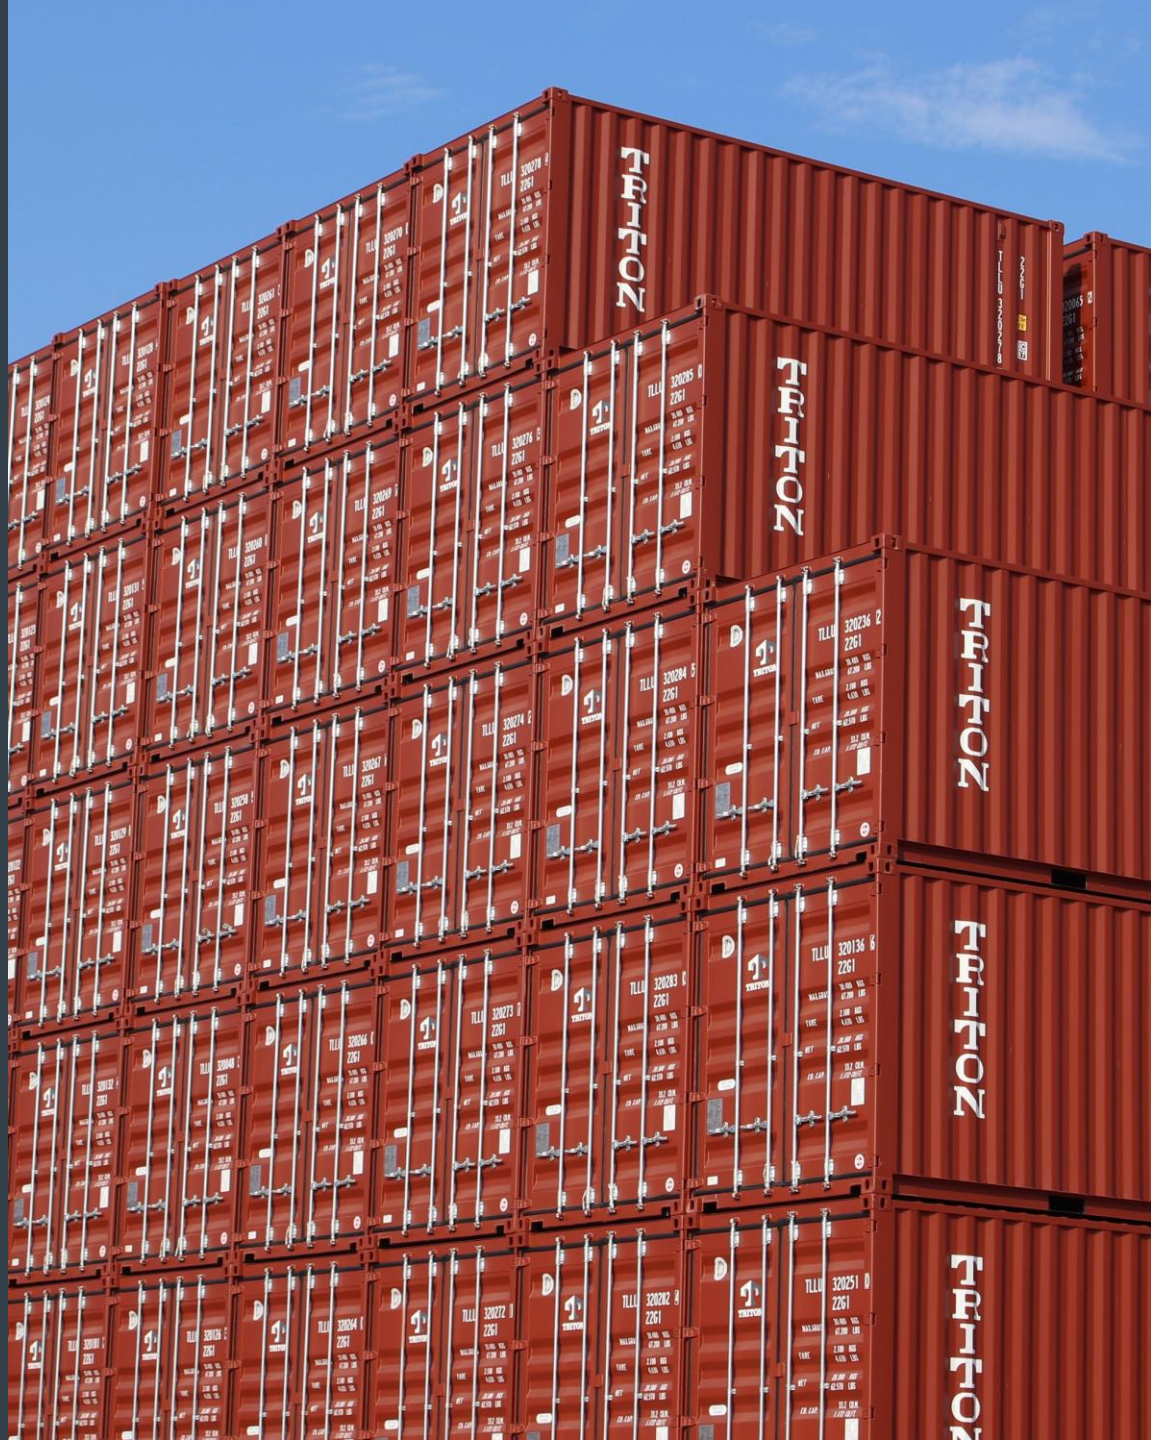

(1) Cash flow before capex (excluding certain items) is a non-GAAP financial measure. See Non-GAAP Financial Information in the Appendix.
(2) Excludes corporate revolver which is expected to be extended well before maturity

(3) Triton's long-term and short-term issuer ratings are BBB/A2 by S&P Global Ratings and BBB-/F3 by Fitch. Senior Unsecured Notes have bullet maturities ranging from 2031 to 2033.

Appendix

Non-GAAP Financial Information

We use the terms “adjusted net income,“ “cash flow before capex (excluding certain items)”, “net debt” and other non-GAAP financial measures throughout this presentation. These items are not presented in accordance with U.S. GAAP and should not be considered as alternatives to, or more meaningful than, amounts determined in accordance with U.S. GAAP, including net income, cash flow from operations or common shareholders’ equity. These measures may not be comparable to similarly titled measures used by other companies.

Adjusted net income is adjusted for certain items management believes are not representative of our operating performance. Adjusted net income is defined as net income attributable to common shareholders excluding debt termination expenses net of tax, unrealized gains and losses on derivative instruments net of tax, severance and LTIP compensation costs, foreign and other income tax adjustments, and gain on sale related to the Tank Sale net of tax.

We believe that adjusted net income is useful to an investor in evaluating our operating performance because this item:

- is widely used by securities analysts and investors to measure a company's operating performance;
- helps investors to more meaningfully evaluate and compare the results of our operations from period to period by removing the impact of certain non-routine events which we do not expect to occur in the future; and
- is used by our management for various purposes, including as measures of operating performance and liquidity, to assist in comparing performance from period to period on a consistent basis, in presentations to our board of directors concerning our financial performance and as a basis for strategic planning and forecasting.

Cash flow before capex (excluding certain items) is defined as income before income taxes plus unrealized (gain) loss on derivative instruments, net, debt termination expense, severance and LTIP compensation costs, depreciation and amortization, principal payments on finance leases and NBV of container disposals less cash taxes, preferred stock dividends, and other non-recurring adjustments that we believe investors should consider in evaluating our cash flow results. Cash flow before capex excludes the gain on sale related to the Tank Sale. Management utilizes this measure when analyzing financial performance and making operating and strategic decisions.

Net debt is defined as total debt plus equipment purchases payable less cash and restricted cash. Lease prepayments reduce reported net debt, resulting in a decrease in leverage. ND/REA (Revenue Earning Assets) adds back 75% of deferred revenues to adjust for these prepayments. Management utilizes this measure when analyzing target leverage.

We have provided a reconciliation of the non-GAAP financial measures used in this presentation on the following pages.

Certain forward-looking information included in this presentation may be provided only on a non-GAAP basis without a reconciliation of these measures to the mostly directly comparable GAAP measure due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for such reconciliation. These items depend on highly variable factors, many of which may not be in our control, and which could vary significantly from future GAAP financial results.
